PROFESSIONAL SUMMARY

Experienced Penetration Tester and Security Consultant with a strong foundation in network, web application, and cloud security. Deep understanding of regulatory compliance frameworks such as NIST SP 800-53, 800-171, FedRAMP, and CMMC. Skilled in identifying and exploiting security vulnerabilities to uncover gaps, support remediation efforts, and ensure alignment with industry standards.

PROFESSIONAL EXPERIENCE

PRINCIPAL SECURITY CONSULTANT

Vaultes 2022 – Present

- Plan and execute full-scope penetration tests (external, internal, cloud) and full-phase red/purple team engagements aligned with FedRAMP, OWASP, and MITRE ATT&CK, including phishing campaigns and iOS/Android mobile assessments on government and commercial clients.
- Lead security risk and compliance assessments, audits, readiness assessments, and gap analyses across CMMC, FedRAMP, FISMA, and NIST SP 800-53/800-171.

SENIOR CLOUD SECURITY ENGINEER

Freddie Mac 2021 – 2022

- Served as SME for Prisma Cloud and AWS security (backup SME for GCP), applying MITRE ATT&CK, STRIDE, and OWASP Top 10 frameworks to threat model critical platform services and improve detection coverage.
- Evaluated AWS logging capabilities to drive CSOC integration and identified cloud-based TTPs to enhance audit and detection capabilities.

SENIOR RED TEAM PENETRATION TESTER

Freddie Mac 2018 – 2021

- Performed internal and external penetration testing of network infrastructure and web applications using OWASP and MITRE ATT&CK frameworks and led cross-functional purple team assessments to enhance threat detection and response.
- Communicated technical findings, risk impact, and remediation strategies to stakeholders from engineers to executive leadership
